

# English for Upstream Oil and Gas Operations

## SAFE AND EFFECTIVE COMMUNICATION

In Exploration and Production, a workforce able to communicate effectively in a common language is vital to optimising operational performance and to assuring the highest standards in health and safety.

This online course provides targeted, cost effective English language training to international workers in front line E&P operations. Taking the course ensures you get:

- 1. Systematic, consistent execution of HSE processes**
- 2. Increased reliability of maintenance programmes**
- 3. Risk reduction in critical operations**
- 4. Dealing effectively with unpredictable scenarios**
- 5. Stronger cross-functional integration and team optimisation**

Course topics include:

- ✓ Principles of HSE in Oil & Gas
- ✓ Tools and Equipment
- ✓ Rig Components and Systems
- ✓ Working with Hazardous Materials
- ✓ Drilling Systems
- ✓ Preventing Fires and Explosions
- ✓ Well Completion and Surface Treatment
- ✓ Vehicle Safety
- ✓ Oil Production processes
- ✓ Electrical Safety
- ✓ Waste Treatment and Disposal
- ✓ Dealing with Technical Problems

## About the Course

<b>Course Length</b>	40 hours of study, divided into 16 clearly defined 2.5 hour units.
<b>Course Level</b>	Lower-intermediate and intermediate level (B1 in the Common European Framework). At this level, learners can currently understand and communicate in relatively simple English in common situations, including travel, work, and family.
<b>Inputs</b>	Learners watch animated videos, listen to conversations, read relevant texts, look at work-related photographs and images, and study vocabulary, grammar and pronunciation focus points.
<b>Exercises</b>	Learners take a wide range of exercises to learn the target language. They get instant answers and can re-do questions at any time.
<b>Integrated Dictionary and Pronunciation Guide</b>	Click on any word to get its meaning and listen to how it should be said – in both British and American English.
<b>Progress Assessment</b>	Learners can track their results and the time they spend online. There is a measurable progress assessment at the end of every unit.
<b>End of Course CPD Certificate</b>	When participants complete the course, they receive a CPD-stamped Certificate stating the name and level of the course, and a description of what they have learnt.
<b>Lead Writer</b>	Steve Oliver is author of internationally renowned course book, 'English for Global Industries: Oil and Gas', published by Garnet Education. Steve is a highly experienced Business and Technical English teacher, teacher trainer, writer and conference speaker. Steve is also Principal of Accent International, a specialist UK consultancy providing targeted English language training programmes to international companies, including many in the Oil and Gas sector.
